

SOPHIE CHRIST

PHOTOGRAPHER & VIDEOGRAPHER

Sophie Christ is an **art director, fashion photographer and videographer**, creating visual content that connects brands with their audience in an emotional and modern way. Her work combines a strong sense of **light, design and femininity** with clear **visual storytelling for campaigns, social media and e-commerce**.

She develops and produces photo and video projects from concept to final edit, working both in **studio and on location**. With a hands-on approach to retouching, post-production and video editing, she ensures every image feels cohesive, polished and true to the brand.

Inspired by natural light, soft moments and confident silhouettes, Sophie creates imagery that feels warm, authentic and timeless — **helping fashion brands tell a visual story that makes customers feel seen, inspired and connected**.
